PROFILE

Petroleum engineering graduate (B.Eng., Second Class Upper, FUTO) working as Regulatory Officer at NCI Pharm Chem, where I designed and built **NCI RIMS** — a GxP-aware, 21 CFR Part 11-supportable Regulatory Inventory Management System in production use for 50+ NAFDAC-regulated products. Three-plus years of freelance technical writing. I build tools that may only claim what they can prove.

EXPERIENCE

Regulatory Officer — NCI Pharm Chem. Ind., Lagos · 2026 – PRESENT

- Regulatory tracking for **50+ NAFDAC products**: registrations, renewals, import permits, CTD dossiers.
- Designed and built **NCI RIMS** (Next.js · TypeScript · Supabase): 14 modules incl. expiry radar, controlled-document vault, letter studio with QR verification, print design system, RBAC + audit trail.
- Expiry trackers trigger renewals **3+ months early**; reconciled product data to remove recurring inconsistencies.

Production Engineering Intern — NUPRC · OCT 2024 – FEB 2025

- Reviewed **10+ operator production reports** and field-development plans; prepared decision-support reports.
- Applied the Petroleum Industry Act (PIA) to production and compliance analysis.

Freelance Technical & Content Writer — Remote · 2023 – PRESENT

- Long-form explainers, scripts and SEO guides with source verification and retention-first structure.

Research Assistant — Petroleum Laboratory, FUT0 · AUG 2023 – APR 2024

- 15+ drilling-fluid tests (rheology, mud weight, fluid loss, pH); **improved repeatability ~20%** by standardising calibration and documentation.

SELECTED BUILDS

- **NCI RIMS** — regulatory inventory system in production use; private client deployment, walkthrough on request.
- **Aptframe** — AI prompt-builder workspace (Next.js · Supabase · Gemini API); live at aptframe-beta.netlify.app.

EDUCATION & CREDENTIALS

- **B.Eng. Petroleum Engineering**, Second Class Upper (CGPA 3.55/5.00) — FUT0, 2020–2025. Thesis: nanoparticle retention in porous media & permeability alteration in nanoparticle-assisted EOR.
- **Google AI Essentials** — Coursera: prompt design, evaluating AI outputs, responsible AI use.
- **HSE Levels 1-3 (OSHA)** 2023 · **Level 1 Oil Field Rigging** 2024 · **SPE Member** · **NUESA Chapters Executive President** 2023–2025.

SKILLS

Regulatory affairs (NAFDAC · NUPRC · PIA) · technical writing & document QA · Next.js / TypeScript · Supabase / PostgreSQL · row-level security & RBAC · print & document design · Playwright E2E · advanced Excel & data analysis · prompt design & AI-output evaluation · AutoCAD · drilling fluids & HSE.
